NBR Registration No. 1497/2017. Dhaka Tax Bar Association No. U00074.

ACUMEN VALUES

- **Integrity:** We ensure adhering to ethical standards and regulatory requirements. We follow professional codes of conduct to ensure financial reporting is done accurately and ethically. Integrity allows us to avoid conflicts of interest, maintain independence, taking responsibility and being accountable for the accuracy and reliability of financial information.
- **Authenticity:** This underpins trust, transparency and credibility in the financial reporting process. We maintain transparency in the operations of our firm. We openly discuss potential risks, methodologies, financial procedures etc. Clients rely on this trustworthy representation of their financial data to make informed business decisions with confidence.
- **Confidentiality:** We ensure the safeguarding of client's confidentiality. Since we handle sensitive financial data, it becomes our obligation and responsibility to protect their data. Maintaining confidentiality will enhance our professionalism by strengthening the bond between the firm and its clients.
- **Education:** Education ensures expertise knowledge is enhanced and continuous learning enables us to stay up to date with accounting principles, tax laws, financial reporting requirements etc. This way we are able to offer valuable insights, strategic advice and bespoke solutions to navigate complex situations.
- **Client satisfaction:** We ensure to deeply understand our client's needs, challenges, goals and tailoring solutions by offering personalized financial strategies, tax planning advice etc. We further prioritize responsiveness and timely delivery of our world class services and promptly responding to inquiries, concerns and demonstrating exceptional client experience.

OUR SERVICES

ACCOUNTANCY SERVICES

- **Book-Keeping & Annual Accounts:** To stay updated with the contemporary world, it is vital to ensure that accounting treatments are accurate and financial statements adhere to accounting regulations. Our accountants are up to date with new accounting standards and policies which affect financial statements. We verify to check every transaction is correctly documented so there is no room for error while Annual Accounts are produced. We use HMRC approved softwares including Quickbooks, Xero and VT Transaction. Another important aspect of our accounting service includes book-keeping reconciliation which involves verifying financial transactions against source documents such as bank statements or invoices from vendors. This helps to avoid discrepancies in accounting records and minimizing the risk of misstatements in financial statements.
- **Accounting Compliance:** Accounting compliance services are offered in order to ensure that businesses comply with regulations. It includes services such as preparation of annual accounts in time and in accordance with IFRS, relevant laws, regulations and other regulatory requirements set by governing bodies. Our Accounting compliance service helps detangle the complexity of organizations by using innovative ideas and advanced technology. This further ensures transparency and reliability in the financial reporting process which is crucial for stakeholders.
- **IFRS Reporting and UK GAAP:** IFRS reporting and UK GAAP (Generally Accepted Accounting Principles) are frameworks for financial reporting. We provide assistance with IFRS Reporting and UK GAAP to make your business compliant, make decision making and financial analysis easier. The IFRS and UK GAAP assists in generating financial statements which are tailored to the specific needs of your organization. We further ensure the financial reports are prepared in accordance with relevant accounting standards. This helps clients to navigate the complexities of accounting standards, optimize financial reporting processes and ensure they are compliant with all regulatory requirements.

- **Accounting projects:** Accounting projects at Acumen includes a wide range of services including the preparation of accurate and compliant financial statements, tax planning and compliance in order to minimize tax burdens through strategic tax planning, complying with tax laws and filing tax returns. We can also evaluate your internal control system to reduce the risk of fraud and inaccuracies. We also assist businesses with strategic business planning, long term financial planning and implementation of new accounting standards such as (IFRS 15: Lease) in order to minimize disruptions to business operations. We also assess and manage financial and operational risks faced by clients.
- **Management Accounts:** This service involves offering financial information and analysis to help make informed decisions. We also handle and oversee various financial activities on behalf of clients including bookkeeping, accounts payable, receivable management, payroll processing, financial reporting, tax preparation and compliance with accounting standards and regulatory requirements. This service will help your business maintain accurate financial records, ensure compliance with legal requirements and further make well informed financial decisions. This way we can also assess the financial health of your business and assist in improving profitability.
- **Business Plan, Projection and Sales Forecast:** Business Plan and Sales forecast services involve predicting future sales revenue based on factors such as past data, market trends, industry analysis and other such factors. This helps the business plan their operations, allocate resources efficiently, set realistic targets and hence make informed decisions. Various techniques such as quantitative analysis and statistical modeling are used to make sales forecasts tailored to your business needs. We also provide ongoing monitoring and adjustment of forecasts to reflect changing market conditions.

WORKFORCE & HR TECHNOLOGY

- **Payroll Due Diligence:** This involves thorough examination and verification of payroll records and compliance with regulations to ensure accuracy and efficiency. This includes reviewing payroll taxes and employee benefits. This will help your business identify potential risks, ensure your business is compliant and overall improve the payroll management of your business.
- **Remediation:** Remediation services involve addressing and solving issues found during due diligence or compliance reviews. This also includes correcting errors in financial statements, implementing new IFRS, resolving discrepancies in tax filing, implementing compliance with regulations and even training staff to learn the most up to date accounting and compliance principles.
- **Emergency support:** We can provide immediate assistance to clients who face issues with accounting or taxes. This could include any unexpected financial discrepancies and other situations requiring immediate attention.
- **Training:** We can educate and train staff in regards to payroll processing, management and compliance. This includes training to teach payroll software such as: moneysoft or payroll manager software. We can also teach tax regulations, accurate calculations of salaries/ wages, compliance with labor laws, holiday pays, pension enrolments etc. This will enable staff to manage payroll functions, reduce the scope of inaccuracies and overall improve efficiency in payroll processing.

- **Dispute resolution:** This service involves handling conflicts, disagreements and financial disputes such as disagreements over financial statements, tax liabilities etc. We have professionals who can advise you on resolving such disputes efficiently and effectively.
- **Employee benefits:** We can help your business navigate employee benefits and ensure regulatory compliance with tax laws, provide consultation on business planning and offer support with administration and reporting related to employee benefits.
- **Compliance outsourcing:** This service involves delegating compliance related tasks and responsibilities to an external service provider. A wide range of choices will be available to pick from who will cater to your bespoke requirements after doing a regulatory and risk assessment of your business.
- **PSA automation:** Professional Service Automation (PSA) is a system used to streamline processes such as billing, invoicing etc. It will help increase efficiency of workflow, reduce manual tasks, minimize errors, improve project management and hence enhance the overall productivity of your business. We have sophisticated software dedicated to the specific needs of your business and provide training and support staff in using this system.
- **P11D services:** P11D is used to report and declare certain taxable benefits and expenses provided to employees and directors by their employers. This involves assistance to clients in completing and submitting the form to P11D. We can help with expenses and benefits including company cars, health insurance and other perks. We help clients accurately report these expenses and benefits on the P11D forms to ensure compliance with tax regulations.
- **National Minimum Wage (NMW):** The NMW ensures employers comply with legal requirements set by the government. The employer must pay their employees at least the minimum wage according to their age bracket and employment status. We also offer services related to advising businesses on NMW compliance, helping them understand their wage calculations and meet legal requirements to avoid penalties or issues related to underpayment of wages.

**DISPUTE
RESOLUTION**

- **Holiday Pay:** We can advise on statutory holiday entitlements for employees such as calculating the minimum holidays employees are entitled taking into account factors such as overtime, regular pay etc. and any other additional holidays that the employer provides. We also advise businesses on compliance such as Working Time Regulations, which is the governing body for holidays and payments in the UK.
- **Gender Pay:** While going through with our payroll services, we take into consideration a vital aspect which is gender pay. We can train employees to best practice for promoting gender equality at the workplace. This will help your company fulfill the legal obligations regarding biased pay.
- **Governance in the supply chain:** This service involves overseeing and managing the supply chain process in relation to the operations of the business. We can help with policy development including Anti- Money Laundering (AML) policy. We can also assist with risk assessment and identify areas of non-compliance, supplier financial stability, quality assurance etc. We will also ensure you are compliant with laws and regulations relating to supply chain management such as anti- corruption laws, labor laws etc.
- **Producing P60:** P60 is a form provided by employers to their employees at the end of each tax year. This summarizes an employee's total earnings and the amount of tax deducted throughout the year. We can prepare, issue and distribute P60 forms to your employees ensuring accuracy and compliance with tax regulations. This will help your business keep up-to-date and accurate records of income and tax payments for filing of taxes in the future.
- **Producing P45:** A P45 form is one which is issued by the employer to employees when they leave the job. It involves handling paperwork relating to the termination of an employee. A P45 form includes information on the employees earnings as well as the tax deducted during the period of employment. We can assist employers in accurately issuing P45 forms to leaving employees. We also ensure that the correct tax code is applied on the P45. We can also advise your business on the implications of leaving a job and the tax obligations associated with the termination of employment.
- **HMRC PAYE Gateway Administration:** This refers to managing the online portal provided by HMRC for employers to navigate their PAYE (Pay As You Earn) system. The PAYE Gateway allows employers to perform various tasks relating to the employees income tax and national insurance contributions including submitting payroll information, managing employee records, making payments etc. We can help set up your government gateway ID as it is crucial for ensuring compliance with tax regulations and fulfilling employers tasks related to payroll.

PENSION MANAGEMENT

- **Nest Reporting & Management:** National Employment Savings Trust (NEST) is a pension scheme established to meet the automatic enrolment duties for workplace pensions. It is a simple to use, low cost pension scheme for employers and employees depending on who is willing to enroll. We can help with NEST Setup including registering the company with NEST, record-keeping, enrolling eligible employees, help manage the contributions including setting up payroll systems to deduct contributions and remitting payments to NEST.
- **Pension Regulator's Reporting and Compliance:** We are up-to-date with the latest changes in pension regulations and ensure that your business will also remain up-to-date and compliant. We can also collect, organize and maintain accurate data relating to pension schemes and contributions ensuring that the business remains compliant with reporting requirements.

CONSTRUCTION INDUSTRY SCHEME (CIS)

- **CIS Return:** Construction Industry Scheme (CIS) is a tax deduction scheme that applies to construction work. It requires contractors to deduct payments from subcontractors and pass it to HMRC as advance payments towards the subcontractors tax and National Insurance contributions. We can submit CIS300 returns on behalf of your business to HMRC every month which will show the payments made to the subcontractor and the tax deducted. We can also verify the subcontractors' status with HMRC to ensure that they are registered under CIS and that the correct amount of tax is deducted.
- **Subcontractors Verifications:** Subcontractors need to be verified under the CIS before they can receive payments from contractors without tax deductions. They need to register with HMRC for CIS and will receive a Unique Taxpayer Reference (UTR) number once registered. Contractors need to verify subcontractors using HMRC's CIS online service. If the subcontractor is verified, the contractor can pay them without tax deductions. If the subcontractor is not verified, the contractor must deduct tax from their payments at the standard rate.
- **Compliance with CIS:** It is essential under the Construction Industry Scheme (CIS) that both contractors and subcontractors must be registered with HMRC. Subcontractors need to provide their UTR and National Insurance during registration. Both contractors and subcontractors must maintain accurate records of CIS transactions including payments made and received, verification details and any tax deductions made. HMRC conducts compliance checks and audits to ensure that businesses are meeting their CIS obligations. Non-compliance can result in fines, penalties or other enforcement actions.
- **CIS Administrations:** CIS administration is the management and oversight of CIS within a business organization. It is vital to ensure your business is registered for CIS with HMRC if it operates as a contractor or subcontractor in the CIS.
- **HMRC CIS Gateway Administration:** HMRC CIS Gateway administration service refers to managing the online portal of HMRC for recording and processing Construction Industry Scheme related transactions and submissions. We can help register you with CIS and set up a government gateway ID with the necessary credentials.

SECRETARIAL SERVICES

- **Company Formation:** This service involves assisting individuals or businesses in setting up new companies or other legal entities. We have advisors and consultants who can advise on legal structures for the business taking into account factors such as taxes, compliance and liabilities.
- **Company Name Availability Check:** This service is also a part of the company formation offering. We have initial consultation services whereby we sit with clients to understand their business needs and go in with the desired name for the new company. We do this by conducting a thorough search to check the availability of the company name proposed. Companies House is one of the databases whereby company names can be searched to ensure the name is not taken up.
- **Company Name Change:** This service is provided to businesses to assist in updating their legal name. This is done via multiple steps including consultation, name availability check, document preparation, filing process etc. There are a few things to take into consideration such as if the new name complies with legal and regulatory requirements, if the proposed name is available to be used etc.
- **Registered Office Support:** Registered office support services involve assisting clients related to mail handling where mails are received at their registered address. Registered office support services as a secretarial service helps businesses maintain compliance with legal requirements and ensure efficient handling of administrative tasks related to the registered office address.
- **Company Address & Directors Details Change:** When a company director requires to change its director details, we can assist with this process. We can consult to understand the requirement and reason for the director's details change and ensure compliance with legal requirements. We can also guide on the compliance requirements associated with changing director details.
- **Director's Appointment and Terminations:** If a company requires to hire or fire a director, we can assist with this process. In the process of appointing or terminating a director we can get documentation consent forms, companies house forms etc ready to make the procedure straightforward. We will communicate with the clients at each step to ensure the transition is a smooth one and there is minimal disruption to operations.

- **Confirmations Statements:** Confirmation statements are a requirement for all UK companies and Limited Liability Partnerships (LLP's) under the Companies Act 2006. We can help file a confirmation statement at least once every 12 months. We are also updated with the deadline for this submission. Failure to file this statement on time can result in penalties. We will ensure the filing is as accurate as possible to avoid penalties.
- **Share Transfer and Stamp Duty:** This service offer relates to share transfers and stamp duties to assist clients with compliance and administrative tasks. We can assist clients in maintaining accurate records of share transfers, stamp duty payments and other relevant information for tax and regulatory purposes.
- **Certifications of Documents:** Certification of documents is provided to authenticate the validity of certain documents. The documents are reviewed to ensure they are complete, accurate and authentic. Documents that may be subject to certification may be passports, driving licenses and more such legal documents. Certification of documents provides assurance to third parties that the documents are reliable.
- **Accountants Reference Letter:** We can issue accountants reference letters on behalf of our clients for providing a professional recommendation. This letter is issued when requested by clients to provide details on credibility or reliability to lenders, suppliers, other professional business partners etc. This letter includes information about the client's financial standing, and other details that proves the clients creditworthiness and trustworthiness.
- **Mortgage Certifications:** Mortgage certification service involves providing financial verification and documentation to support mortgage applications for individuals or businesses. We do this by verifying financial information, preparing and certifying the accuracy and completeness of the financial statements for mortgage lenders ensuring compliance with lender requirements.
- **High Net Worth Certifications:** This is a process through which individuals are verified and certified as having a high net worth by professional advisors. This certification can be issued by us and is required by individuals seeking certain financial products or services. This certification is issued to clients who have a minimum level of financial assets, income or investments

CORPORATION TAX

- **Corporate Tax Compliance:** This service involves us assisting our clients to meet their tax obligations, including preparing and filing corporate tax returns, ensuring compliance with tax requirements and finding tax saving opportunities. This helps clients fulfill their tax responsibilities while complying with the laws. We therefore provide an effective means of managing the corporate tax compliance load and fulfill obligations in meeting a wide range of company tax compliance requirements.
- **Corporate Tax Accounting:** This service involves assisting businesses with tax compliance, tax planning and tax optimization. It also involves preparing corporate tax returns, ensuring the business is compliant with tax laws and regulations, including identifying tax saving opportunities and advising on reduction of tax liabilities to corporate clients.
- **Tax Consolidations:** Tax consolidation service involves assisting a company group in consolidating their tax affairs in order to file a single tax return. It further includes understanding the tax implications of a group of companies, ensuring compliance with tax laws and also advising the conglomerate in order to enjoy reduced tax liabilities. We can provide full support in relation to consolidated taxes.
- **The Future of Compliance:** We use sophisticated and up to date softwares in order to streamline compliance processes, improve accuracy of the work provided and reduce manual workload to ensure no room for error. In order to get on with the evolution of regulations and standards, compliance services are taught through effective training to ensure your business stays ahead of changes and provide value added services.

SELF ASSESSMENT

- **Airbnb, Buy to Let Property Tax Returns:** A buy to let property tax return service involves assisting individuals or companies who have investment properties with their tax compliance requirements. We can help file taxes specific to rental income from buy to let properties while remaining compliant and following relevant tax laws, identifying allowed deductions, ways to minimize tax liabilities and many more.
- **Annual Tax on Enveloped Dwellings (ATED) Assessment:** Annual Tax on Enveloped Dwellings is tax applied to residential properties owned by companies aimed at properties held within corporate structures and is designed to discourage the use of such structures for holding high value residential properties. The ATED applies to properties with a value above a certain threshold and requires an annual tax to be filed which we can assist with. The amount of the tax is based on the value of the property. We can further assist with strategic tax planning which may help reduce ATED liabilities and optimize overall tax positions for clients owning enveloped dwellings.
- **House in Multiple Occupation (HMO) Tax Assessment:** A House in Multiple Occupation is a property rented out to multiple tenants who are not from the same household and who share certain facilities such as kitchen etc. This service involves assisting landlords whose properties fall under the HMO category with their tax compliance obligations. We can deduce if the property meets the legal definition of an HMO which will determine the application of tax liabilities and allowances, ensuring compliance with relevant tax laws and regulations. Our goal is to help landlords optimize their tax positions while ensuring compliance with tax authorities.
- **Student Landlords Tax Management:** This service includes assessing tax implications of renting to students, preparing and filing tax returns specific to rental income from student properties and maximizing allowable deductions and allowances to minimize tax liabilities and providing advice on tax efficient property ownership structures. The goal of this service is to help landlords optimize their tax positions while ensuring compliance with tax laws.
- **Partnership Accounts and Tax Return:** We offer partnership accounts and tax return services to small to medium businesses. These assist partnerships in managing their reporting is done correctly while complying with tax regulations. We can also assist in preparing partnership financial statements.

Self Assessment tax

- **Commercial Landlords Tax Management:** This service involves assisting landlords who own commercial properties with various financial and administrative tasks in relation to property management. We can assist with services such as administering lease agreements, including reviewing and renewing leases, ensuring compliance with lease terms and conditions. We can also provide financial and tax reporting services such as preparing income and expense reports, preparing and filing tax returns. The goal is to help landlords manage their commercial properties, maximize rental income and be compliant with tax regulations.
- **Let Property Campaign Tax Return:** The Let Property Campaign is an initiative by HMRC aimed at landlords with undeclared rental income. This service will allow landlords who are a part of this campaign with their tax compliance requirements. It includes reviewing the landlord's rental income to ensure accuracy, preparing and filing taxes, calculating any tax liabilities owed to HMRC based on undisclosed rental income and providing guidance and support throughout the Let Property Campaign process.
- **Non-Resident Property Owners Tax Return:** Non resident property owners are individuals or entities that own property in the UK but are not tax residents of the country. This may include foreign investors, expatriates etc. This service assists individuals or entities who own property in the UK. We can prepare and file tax returns including reporting rental income, claiming allowable deductions and calculating tax liabilities owed to HMRC. We can also assist in calculating Capital gains tax on any gains made from selling residential property, advise businesses on their ATED obligations if they own any high value residential properties in the UK, including filing ATED returns.
- **Single Property Owners Tax Returns:** This involves assisting individuals who own a single property with their tax compliance requirements. Services include rental income reporting: helping property owners report rental income, reporting capital gains tax if the property is sold, filing for tax returns, ensuring compliance and timely submission of returns etc. The goal of this service is to assist property owners fulfill their tax obligations.

VAT RETURN

- **Cash Accounting Scheme:** The Cash Accounting Scheme is a method of accounting for Value Added Tax (VAT) on the basis of payments made and received rather than invoices issued and received. We can assist businesses with the registration with the scheme if eligible, we can also assist with recording transactions, VAT return preparations, compliance reporting and support. To join the scheme your VAT taxable turnover must be £1.35 million or less. VAT taxable turnover is the total of everything sold that is not VAT exempt. To use the cash accounting scheme your business has to be registered for VAT. You must leave the scheme if your VAT taxable turnover is more than £1.6 million. You should leave at the end of a VAT accounting period.
- **Standard Rate:** The standard rate in the UK is set at 20%. We can assist in helping your business comply with VAT regulations, preparing VAT returns and advising on VAT implications for transactions. Most goods and services are charged 20%, others are VAT exempt and such follows.
- **Flat rate scheme:** Under this scheme, businesses have to pay a fixed percentage of their gross turnover to HMRC as VAT rather than calculating VAT on each transaction. Businesses with an annual turnover of less than 150,000 GBP or less (excluding VAT) can join this scheme. The rate ranges from 4%-16.5% depending on the sector of business. We can assist in submitting VAT returns to HMRC. With flat rate scheme you cannot reclaim the VAT on your purchases. You must leave the flat rate scheme if on the anniversary of joining, your turnover in the last 12 months was more than £230,000 (including VAT) - or you expect it to be in the next 12 months. The VAT flat rate you use usually depends on your business type. You may pay a different rate if you only spend a small amount on goods. You get a 1% discount if you are in your first year as a VAT-registered business.

CAPITAL GAINS TAX RETURN

- Capital Gains Tax is a tax on the profit when you sell (or 'dispose of') an asset that has increased in value. We offer capital gains tax services to businesses who are subject to CGT obligations.
- We can calculate capital gains and losses arising from the disposal of assets such as property, investments etc.
- We can also assist with tax planning, provide strategic planning to help clients minimize their tax burden while complying with the tax laws, assist with compliance etc.
- We can also educate our clients about capital gains tax laws and how they impact their financial situation. Provide resources and guidance to help them make informed decisions regarding their investments and tax liabilities.
- We can guide clients in gathering all necessary documentation related to their capital gains, such as sale documents, investment statements, and receipts for any relevant expenses. We will utilize accounting software or tools to accurately calculate capital gains tax liabilities. Generate comprehensive reports detailing the calculations, ensuring transparency and clarity for clients.

INHERITANCE TAX PLANNING

- We offer comprehensive tax planning services to help them minimize their tax liability and transfer wealth to future generations without any hassle. We can assist with estate planning, will drafting, review and business succession planning. This will allow you to optimize estate plans while ensuring compliance with inheritance tax regulations.
- We offer a thorough consultation to understand the client's financial situation, including their assets, estate size, and potential inheritance tax liabilities. Discuss their goals and preferences regarding wealth transfer to heirs.
- We can also assist clients in drafting or updating their wills and estate planning documents to optimize tax efficiency and ensure their wishes are carried out effectively. This may include structuring bequests, establishing trusts, and naming beneficiaries.
- We also provide investment advisory services focused on tax-efficient investment strategies that align with clients' inheritance tax planning objectives. Help clients diversify their portfolios while minimizing tax liabilities.

ADVICE ON TRUSTS AND ESTATES

- This service adds another layer of comprehensive financial planning and management for clients. Our team has all the necessary expertise in trusts, estates and inheritance laws and are also updated on relevant laws and regulations.
- Every client's situation is unique. We offer personalized solutions that align with your financial goals, family dynamics, and estate planning needs. We take into consideration certain factors such as asset protection, wealth transfer, charitable giving and minimizing tax liabilities. We offer ongoing support to our clients including assisting them with trust administration, distribution of assets, and resolving any disputes that may arise.

Audit

TAX AUDIT

- **Tax dispute prevention techniques:** This service enables businesses to comply with tax laws and regulations while minimizing the risk of disputes through tax planning, compliance reviews, education and training of staff, maintaining accurate documentation of financial transactions etc.
- **Tax audit management practices:** This service allows businesses to avoid negative impacts of tax audits. This is done by maintaining comprehensive documentation supporting tax filing, financial records, receipts, payments etc. We can also assist in internal reviews such as ensuring accuracy and completeness and compliance with regulatory requirements.
- **Strategic planning of tax audits and disputes:** We can assist in developing strategies to help businesses reduce the chances of tax audits and disputes through risk assessments- identifying potential areas of risks, tax compliance reviews, tax planning and strategy, documentation and recordkeeping of financial transactions and tax related activities.
- **Tax dispute resolution alternatives:** This service involves providing businesses options to resolve disputes outside litigations and formal audits. This may include negotiations between clients and tax authorities to resolve disputes mutually and come to a common agreement. This is also a cheaper alternative for formal dispute resolution- audits. Other ways of resolving disputes outside formal audits include installment agreements, offer in compromise programs etc.
- **Tax risk management, analysis and disclosure:** This service involves identifying, assessing and mitigating tax related risks which can be done through risk assessments, risk analysis, compliance reviews, tax disclosures, maintaining documentation to support compliance efforts, tax planning strategies, training and education of staff.

TAX AUDIT

TAX INVESTIGATIONS & APPEAL

- **Tax Risk Management:** Tax risk management allows clients to minimize the chances of disputes with tax authorities through compliance assessments, identifying areas of risks, strategic tax planning to minimize the tax liabilities, tax compliance reviews to identify areas of discrepancies and training and education.
- **Defense files:** A defense file is a document a business maintains to ensure compliance with tax regulations and comes in handy during a tax audit or dispute with tax authorities. We can assist clients in gathering and organizing documents relating to tax positions. We can also provide guidance on maintaining compliance with existing and new tax laws, audit preparedness training, scenario planning, training of staff etc.
- **Risk review & Voluntary Disclosures:** Through this service we can help businesses identify and rectify tax issues through risk assessments, regulatory compliance check, transaction analysis, documentation reviews, staff education and training on effective record- keeping to support voluntary disclosures, strategic tax planning and overall legal support through collaboration with legal professionals.

FORENSIC ACCOUNTING

- **Litigation Support:** Provide assistance of an accounting nature in a matter involving existing or pending litigation. It deals primarily with issues related to the quantification of economic damage. A typical litigation support assignment would be calculating the economic loss resulting from a breach of contract.
- **Investigative Accounting:** It is often associated with investigations of financial frauds. A typical investigative accounting assignment would be an investigation of occupational fraud. Other examples include securities fraud, insurance fraud, kickbacks. Including understanding the impact of corporate frauds and potential losses associated with fraud and establishing effective loss control measures are critical for companies from cost, cultural, and risk management perspective.
- **Forensic Reporting:** A compilation of all the observations, results, conclusions gathered from the investigations. Documenting an investigation is as important as performing it.
- **Investigation Consultancy:** Meticulous analysis of financial data to uncover irregularities and potential fraud. Forensic accountants track financial transactions, trace funds, and quantify losses incurred due to financial misconduct. They provide expert opinions and detailed reports that support legal proceedings, offering crucial insights into complex financial matters.

Child
Tax
Credit

UNIVERSAL CREDIT ADVICE

- Universal Credit is a payment to help with your living costs. It's paid monthly. You may be able to get it if you have a low income, are out of work or you cannot work.
- Universal Credit is replacing credits such as Child Tax Credit, Housing benefit, Income support or pension credit under the Department for Work and Pension (DWP) etc. Hence, you will stop getting these benefits if you claim universal credit.
- Universal credit amount depends on your standard allowance, any extra amounts that apply to you, any money taken off your payment, if you're working, how much you earn. You may get more money on top of your standard allowance if you have children living with you, have childcare costs, if you have a disability, have limited capability to work etc.
- We can assist in advising you regarding universal credit, checking your eligibility etc.

R&D CREDIT

- Research and Development (R&D) tax relief supports companies that work on innovative projects in science and technology. The project must relate to your company's trade, either an existing one, or one that you intend to start up based on the results of the R&D.
- To claim R&D, you must be able to prove how the project creates advances in the field, you had to or tried to overcome uncertainties
- You can claim SME R&D tax relief if you are a SME with less than 50 staffs or have a turnover of under 100 million euros.
- We can provide advise if you are eligible to claim R&D tax relief etc.
